Assignment 14

1.Create a backup of your WhatsApp chat history on your Android device, then locate and verify the backup file in your Google Drive or local storage.

Ans-

Step 1: Open WhatsApp

1. Unlock your Android phone.
2. Open WhatsApp.
3. Tap ⋮ (three dots) at the top-right.
4. Select Settings.

Step 2: Open Chat Backup

1. Tap Chats.
2. Select Chat backup.

Step 3: Select Google Account

1. Under Google Account, select your Google Account.
2. If no account is selected, choose Add account and sign in.
3. Select the backup frequency, such as Daily, Weekly, or Monthly.

Step 4: Create the backup

1. Select the Google Account.
2. If required, enable Include videos.
3. Tap Back up.
4. Wait until the backup process finishes.

Verify the backup

On the phone:
WhatsApp → Settings → Chats → Chat backup

Check:

- Last backup date/time
- Google Account
- Backup size

You can also check Google Drive's Backups area if your current Drive interface provides it. WhatsApp backups are not necessarily visible as a normal file in My Drive.

Local backup

On some Android/WhatsApp configurations, local database backups may be found under:

Internal Storage → Android → media → com.whatsapp → WhatsApp → Databases

**2.Simulate accidental photo deletion by moving 3 images from your phone's gallery to the trash, then restore them using your phone's built-in recovery feature.

Hint: Check the 'Recently Deleted' or 'Trash' folder in your gallery app.**

Ans-

Step 1: Open Gallery/Google Photos

1. Open Gallery or Google Photos.
2. Select any 3 images.

Step 2: Move photos to Trash

1. Tap Delete.
2. Confirm Move to Trash/Delete.
3. The three photos should disappear from the main gallery.

Step 3: Open Trash/Recently Deleted

Depending on your phone:

Google Photos:

1. Open Google Photos.
2. Tap Collections.
3. Tap Trash.

Samsung Gallery:

1. Open Gallery.
2. Tap Menu (☰).
3. Select Trash/Recycle bin.

Step 4: Restore

1. Select the 3 deleted images.
2. Tap Restore.
3. Confirm restoration.

Step 5: Verify
Go back to the Gallery/Photos main screen and check that all 3 images are available again.

3.Write a step-by-step guide (with screenshots if possible) on how to schedule automatic backups of your contacts to Google Account or iCloud, so you never lose them if your phone is lost.

Ans-

Step 1: Open Settings

1. Open Settings.
2. Go to Accounts and backup / Passwords & accounts.
3. Select your Google Account.

Step 2: Enable Contacts Sync

1. Tap Account sync.
2. Find Contacts.
3. Turn it ON.
4. Tap Sync now if available.

Google Contacts method

1. Open the Google Contacts app.
2. Tap your profile picture.
3. Go to Contacts settings.
4. Check the settings for Google contact synchronization.
5. Make sure new contacts are being saved to your Google Account, rather than only to the phone/SIM.

Verify

Open Google Contacts on another device or on the Google Contacts website and sign in with the same Google Account.

Steps

1. Open **Settings**.
2. Tap your **Apple Account/name** at the top.
3. Select **iCloud**.
4. Tap **See All** if required.
5. Find **Contacts**.
6. Turn **Contacts ON**.
7. If asked, select **Merge**.

Verify

Sign in to iCloud using the same Apple Account and check whether your contacts are available.

4.Use Google Takeout to export and download a backup of your YouTube playlist data, then extract the ZIP and list the names of all playlists you backed up.

Ans-

Step 1: Open Google Takeout

1. Open a browser.
2. Sign in to the Google Account that contains your YouTube playlists.
3. Open Google Takeout.

Step 2: Select YouTube data

1. In the Google Takeout product list, find YouTube and YouTube Music.
2. Select it.
3. If available, choose the specific YouTube data/categories you want to export.
4. Continue to the next step.

Step 3: Create export

Choose:

- Export once
- File type: ZIP
- Maximum archive size: choose a suitable size

Then click Create export.

Step 4: Download ZIP

1. When the export is ready, open the email/Google Takeout page.
2. Click Download your files.
3. Authenticate if Google asks.
4. Download the ZIP file.

Example:

takeout-2026-10-08T....zip

Step 5: Extract ZIP

On Windows:

1. Right-click the ZIP file.
2. Select Extract All.
3. Select a destination folder.
4. Click Extract.

Step 6: Find YouTube data

Open the extracted folder and look for folders related to:

YouTube and YouTube Music

Step 7: List playlist names

Create a list such as:

No.	Playlist Name
1	Playlist 1
2	Playlist 2
3	Playlist 3

5.Test restoring a deleted file from Google Drive's Trash: upload a sample file, delete it, then recover it from Trash and confirm it's accessible.

Ans-

Step 1: Upload sample file

1. Open Google Drive.
2. Click + New.
3. Select File upload.
4. Select a sample file from your computer.
5. Wait until the upload finishes.

Verify that the file appears in Google Drive.

Step 2: Delete the file

1. Right-click the uploaded file.
2. Select Organize → Move to trash or Move to Trash depending on the interface.
3. Confirm if required.

The file should disappear from My Drive.

Step 3: Open Trash

1. In Google Drive, open the left-side menu.
2. Select Trash.

You should see the deleted sample file.

Step 4: Restore the file

1. Right-click the sample file.
2. Select Restore.
3. Wait for the restoration to complete.

Step 5: Verify

1. Go back to My Drive.
2. Find the restored file.
3. Open the file.
4. Confirm that the contents are still accessible.

Example:

File: Backup_Test.txt
Status: Restored
Accessible: Yes
